REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicants claim a process for obtaining an enantiomerically enriched 3-aminopentane nitrile or its salts from racemic 3-aminopentane nitrile comprising the 3-steps shown in claim 1.

The novel feature of this invention resides in starting with a racemic mixture of (R) and (S) -3-aminopentane nitrile, which is then enriched for one or the other racemate using the process of claim 1. The prior art of record, Williams et al., teaches the preparation of (R) or (S) -3-aminopentane nitrile starting from (R) or (S) -aminobutanol. Thus, the racemates are never mixed during the process as is required of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
